# Data Report on Updated Intern Data

This report provides insights into the cleaned intern dataset. It includes key visualizations such as the distribution of assignment scores, graduation status, and the distribution of programs.
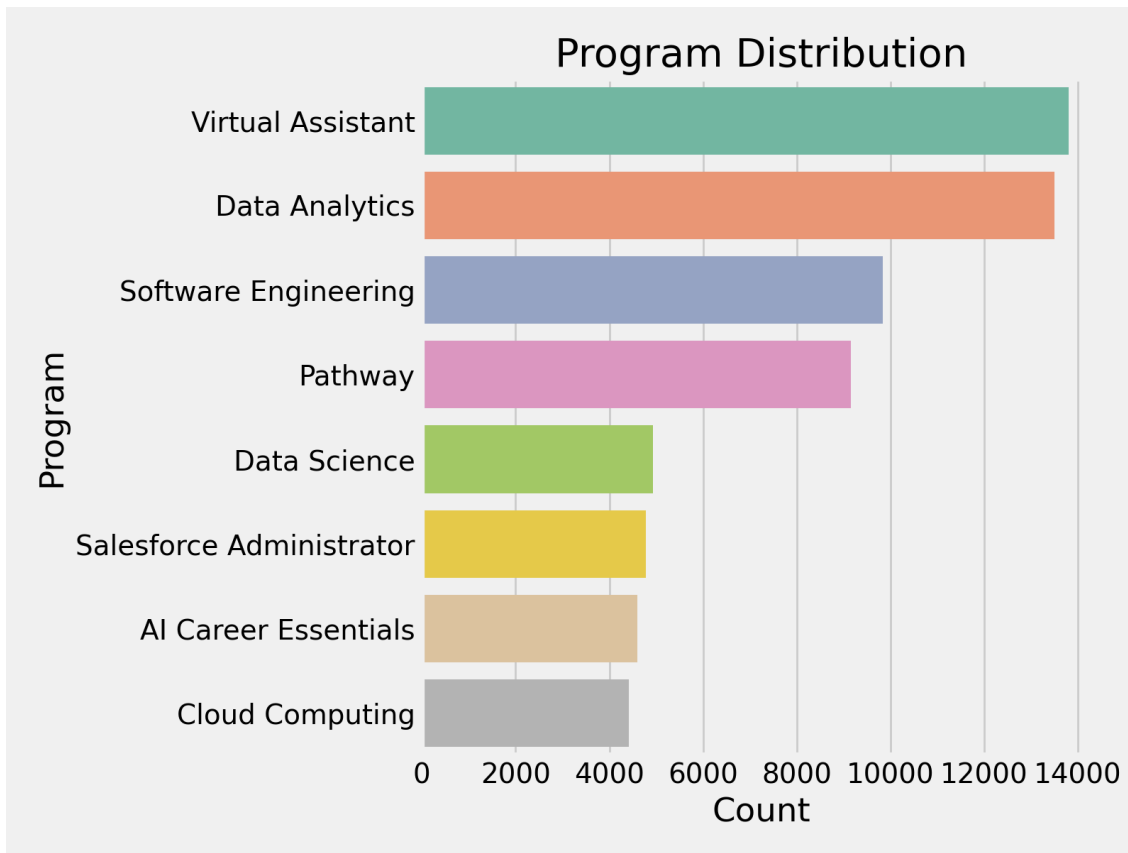

Distribution of Assignment Scores

Graduation Status Counts

Data Report on Updated Intern Data

Distribution of Programs

Program Distribution

A horizontal bar chart titled "Program Distribution" showing Count on the x-axis (0 to 14000) and Program on the y-axis:

Program	Count (approx.)
Virtual Assistant	~13900
Data Analytics	~13600
Software Engineering	~9800
Pathway	~9200
Data Science	~4900
Salesforce Administrator	~4700
AI Career Essentials	~4500
Cloud Computing	~4400

Overall, the dataset contains records from multiple programs with varying assignment scores. The graduation status visualization indicates a clear split among interns regarding their completion status. Further analysis could consider correlations between program, assignment types, and graduation rate.
